# EXCHANGE

From the moment I landed in Germany, I knew my life was about to change in an extraordinary way. Participating in the exchange in this city was undoubtedly one of the best decisions I have made so far.

## INTRODUCTION

The exchange in Stuttgart became a journey that surpassed all my expectations. From the first day, I immersed myself in a vibrant and welcoming culture that quickly felt like a second home. Stuttgart not only became my temporary place of residence but rooted itself in my heart in a way I never imagined.

# GRATITUDE TO DHBW UNIVERSITY:

My gratitude to DHBW University knows no bounds. Their unwavering support from day one made a difference in my exchange experience. The university not only provided high-quality academic resources but also ensured that every student felt supported in every aspect. The willingness of the staff to assist and guide us made each day easier and more enriching.

## ACTIVITIES

The university, the teachers and the buddies organized a lot of different activities for us to know each other and also to visit some beautiful places from Germany and Stuttgart.

# IMPRESSIONS OF STUTTGART:

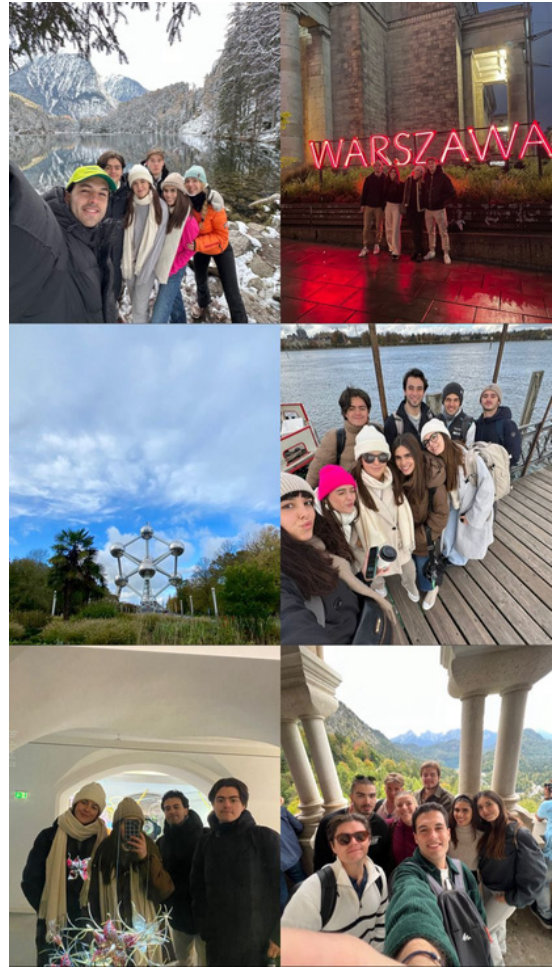

Stuttgart, with its unique blend of history, modernity, and natural beauty, left me completely in love. From the majestic parks to the fascinating museums, every corner of the city had something special to offer. The kindness of the local people and their willingness to share their culture contributed to making my stay an authentic and enriching experience.

# PERSONAL CONNECTIONS:

One of the most treasured aspects of this experience was the opportunity to meet incredible people. The group I shared this months, they became my exchange family that has left an indelible mark on my life. Together, we created memories that I will carry with me forever.

# THE END

In summary, my time in Stuttgart was one of the best experiences of my life. The city, the people, and the university came together to create an environment where I could grow, learn, and form meaningful connections. If given the opportunity, I would repeat this exchange as many times as possible. Stuttgart, thank you for becoming my home away from home, and my friends that were my new family this months, without them this wouldn't be the same experience. I'm gonna miss them all too much, and I hope one day we all can be together again to remember all the good times we passed in our exchange.
