

Department of
Health Sciences & Management

Cooperative State University Baden-Wuerttemberg

- first practice-integrating cooperative state university in Germany
- since its foundation 1st March 2009, the university proudly continues the tradition of cooperative studies, initiated forty years ago by the former professional academy (*Berufsakademie*)
- 9 universities under one roof, following the example of the US-American state university system

<http://www.dhbw.de/die-dhbw/wir-ueber-uns.html>

The „Stuttgart Concept“

- In the early 70s, local companies such as Daimler-Benz, Bosch and SEL developed the so-called Stuttgart university concept, a blueprint of the later professional academy (*Berufsakademie*)
- In 1974, the Stuttgart professional academy started with 122 students and 35 cooperating companies in the schools of Business and Technology. In 1975, the school of Social Work was added.
- Today, a total of 34,000 students complete their practical training at one of 9,000 national and international cooperating companies
- Largest institution of higher education in the state of Baden-Wuerttemberg, counting 150,000 alumni
