EFEU Summer School 2025:

Future Skills for a Sustainable Industry

The Emission Free European Universities (EFEU) Summer School is a dynamic, one-week program hosted by a consortium of four leading European universities. This program aims at enhancing sustainability competencies among students. Through interactive workshops, site visits, expert-led lectures, and collaborative projects, participants will explore innovative strategies for achieving carbon neutrality, promoting energy efficiency, and fostering sustainable practices in engineering disciplines. The program provides a hands-on learning experience, empowering students to become leaders in driving environmental change and creating a sustainable future.

Date:

May 5th - 9th 2025

Location:

DHBW Stuttgart, Germany

Target audience: All students (availability is limited)
